Summary

Final-year B.Tech Computer Science Engineering (AI ML) student with CGPA 8.38, skilled in Java ,Python, SQL, Spring Boot, React.js, and ServiceNow development. Hands-on experience building AI-powered, database-driven, and full-stack applications through academic and internship projects. ServiceNow CSA and CAD certified with practical exposure to workflow automation, application development, and problem-solving.

Education

MLR Institute of Technology, Hyderabad	2023 – 2027
B.Tech in Computer Science Engineering (AI & ML)	CGPA: 8.38
Narayana Junior College	2023
Intermediate	96%
Tejaswi Concept High School	2021
SSC	100%

Skills

- **Programming:** Java, Python, C
- **Core CS:** Data Structures and Algorithms, Object-Oriented Programming , DBMS, Operating Systems
- **Technologies:** HTML, CSS, JavaScript, React.js, Spring Boot, REST APIs, JDBC, Git, GitHub, Linux
- **Databases:** MySQL, MongoDB
- **ServiceNow:** Catalog Items, Service Catalog, Flow Designer, Client Scripts, Business Rules, UI Policies
- **AI/ML:** Machine Learning, Data Preprocessing, Generative AI

Experience

Infosys Springboard Internship – Full Stack Development

Inventory Management and Reporting System

- Developed an Inventory Management and Reporting System using Java, SQL, and web technologies.
- Implemented inventory tracking, stock management, transaction recording, and report generation features.
- Designed relational database schemas and SQL queries to support inventory operations.
- Collaborated on frontend and backend development activities as part of a full-stack development learning program.

ServiceNow Virtual Internship

- Worked with Catalog Items, Flow Designer, Client Scripts, Business Rules, UI Policies, GlideRecord, and Service Catalog development.
- Gained exposure to workflow automation, platform customization, and application development.

Projects

RecruitGen AI (Multi-Agent Recruitment Platform)

- Developed an AI-powered recruitment platform for resume screening, candidate evaluation, and hiring workflows.
- Implemented resume parsing, candidate profile generation, job matching, and recruiter-candidate modules.
- Integrated database operations for managing candidate, recruiter, and job information.
- Designed recruitment workflows supporting candidate screening, profile management, and application tracking.

An Intelligent Greeting and Guidance System Using Simulated Autonomous Navigation and AI-Based Speech Generation

- Developed a system for face recognition, user greeting, and AI-generated speech interaction.
- Designed simulated navigation workflows for user guidance and human-system interaction.
- Contributed to recognition, greeting, navigation, and speech-generation modules in a team environment.
- Participated in integrating AI-based speech generation with user interaction and navigation workflows.

Travel Ease

- Developed a travel booking platform for exploring, comparing, and selecting travel packages.
- Implemented backend functionality and database integration for managing user and booking information.
- Designed database structures to efficiently manage travel packages, bookings, and user records.

Certifications

ServiceNow Certified System Administrator (CSA)	ServiceNow
ServiceNow Certified Application Developer (CAD)	ServiceNow
MongoDB Basics for Students	MongoDB University
Generative AI	Google Cloud
Python Essentials	Cisco
