INTERNSHIP EXPERIENCE

Virtual Internship – Infosys Springboard

Mar 2026 – Apr 2026

- Learned full-stack application development concepts using Java, Spring Boot, Angular, and MySQL.
- Worked with REST APIs, backend workflows, database connectivity, and frontend integration during internship activities.

PROJECTS

Budget Tracker System

Angular, Spring Boot, MySQL

- Developed a full-stack budget tracking application using Angular frontend and Spring Boot backend.
- Implemented expense management, PDF report generation using iTextPDF, and email reminder functionalities.
- Integrated MySQL database for storing and managing financial transaction records.

Fare Comparison System

Angular, Spring Boot, REST APIs

- Developed a fare comparison web application using Angular and Spring Boot.
- Integrated APIs from platforms such as Zomato and Swiggy for real-time food price comparison.
- Implemented backend API handling and efficient data processing for price analysis.
