Hyderabad, Telangana, India

## PROFESSIONAL SUMMARY

Results-driven Computer Science & Machine Learning undergraduate (3rd Year, CGPA: 7.91) and current Full-Stack Developer Intern at Navodita Infotech. Proven track record building AI-powered privacy-risk detection systems and AR-based navigation prototypes. Runner-Up at Mindsprint 2K25 (national-level). Skilled in Python, SQL, JavaScript, React.js, and Power BI, with hands-on experience across full-stack development, data analytics, and machine learning. Actively seeking opportunities to contribute to innovation-led engineering teams.

## EXPERIENCE

### Full-Stack Developer Intern · [Navodita Infotech](#) May 2026 – Present

Hyderabad, Telangana · Remote

- Building and maintaining production web features using React.js, JavaScript, and SQL across the full development lifecycle.
- Collaborating with cross-functional teams to deliver responsive, user-facing interfaces and backend integrations.
- Contributing to code reviews, sprint planning, and agile delivery workflows within a professional engineering environment.

## PROJECTS

### Data-Driven Privacy Risk Detection System for Android Applications 🏆 Runner-Up · Mindsprint 2K25

- Engineered a Python-based analytical system to evaluate Android application permissions and identify privacy vulnerabilities.
- Designed data leakage pattern detection algorithms enabling automated risk classification across multiple permission categories.
- Built interactive dashboards with jQuery-enhanced UI to visualize privacy risk levels for non-technical stakeholders.
- Recognised as Runner-Up at Mindsprint 2K25 — national-level inter-college Privacy Analysis Dashboard competition.

### AR-Based Indoor Navigation System — MLRIT College Blocks

- Conceptualised and designed an Augmented Reality indoor navigation solution for a multi-block college campus environment.

- Implemented QR-code-based location detection as anchor points, enabling real-time directional guidance without GPS dependency.
- Developed a companion web interface using HTML, CSS, JavaScript, and jQuery for system monitoring and configuration.
- Produced system architecture documentation outlining scalability pathways for campus-wide deployment.

**Job Board Platform**

- Full-stack job listing and application platform built with React.js, MongoDB, and Node.js, connecting employers with candidates.
- Implemented real-time search, role-based filtering, and a clean responsive interface optimised for mobile and desktop.

**TECHNICAL SKILLS**

---

**Languages:** Python, SQL, MySQL, JavaScript (ES6+), Java, jQuery  
**Frontend:** React.js, HTML5, CSS3, DOM Manipulation, AJAX, Responsive Design  
**Data & BI:** Power BI, Data Analytics, AI/ML, Visualization Dashboards, EDA  
**Platforms:** ServiceNow, IBM SkillsBuild, Git, HackerRank, Cisco NetAcad  
**Domains:** Full-Stack Development, Android Permissions Analysis, AR/QR Systems, Machine Learning  
**Soft Skills:** Analytical Thinking, Problem Solving, Research Orientation, Team Collaboration

**CERTIFICATIONS**

---

- **ServiceNow Certified System Administrator (CSA)** · ServiceNow — *May 2026*
- **Power BI for Beginners** · Microsoft — *May 2026*
- **GenAI Powered Data Analytics Job Simulation** · Tata / Forage — *May 2026*
- **SQL & Relational Databases 101** · IBM Cognitive Class — *Sep 2025*
- **Generative AI: Evolution of Thoughtful Online Search** · IBM Developer Skills Network — *2025*

**ACHIEVEMENTS**

---

- Runner-Up, Mindsprint 2K25 — National-level inter-college competition for Privacy Analysis Dashboard built with Python & ML.

**EDUCATION**

---

**B.Tech — Computer Science & Machine Learning (CSM)***May 2023 – May 2027*  
[MLR Institute of Technology, Hyderabad](#) · CGPA: 7.91 · 3rd Year  
**Intermediate (MPC)***2021 – 2023*  
[Sri Chaitanya College](#) · State Board · 85%  
**Secondary School Certificate (SSC)***2021*  
[Sri Chaitanya School](#) · GPA: 10.0 / 10.0 (Perfect Score)
