Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with strong skills in full-stack development and machine learning. Interested in building scalable, data-driven applications.

Education

Bachelor of Technology in Computer Science , MLR Institute of Technology	
Specialization: Artificial Intelligence and Machine Learning	
CGPA: 7.88	2023–2027
Intermediate (MPC) , Narayana Junior College	2021–2023
Percentage: 94.2%	
SSC (10th) , Sri Chaitanya School	2021
Percentage: 100%	

Technical Skills

Languages: Python, Java, C, JavaScript
Frontend: HTML, CSS, React.js
Backend: Spring Boot, Node.js
Databases: MySQL, MongoDB
Core Concepts: Data Structures, Algorithms, OOPS
Tools: Git, VS Code

Soft Skills

Communication, Problem Solving, Team Collaboration

Experience

Spring Boot Intern, Infosys	2026
- Built and integrated an EPL match prediction module using machine learning - Achieved a baseline prediction accuracy of 60% using historical match data - Developed REST APIs with Spring Boot for backend integration	

Projects

EPL Match Prediction System	2025–2026	Git
- Built a predictive model achieving 60% accuracy using historical match data - Engineered features such as Elo ratings, team form, and head-to-head statistics - Applied data preprocessing and feature engineering techniques to improve performance		
Smart Retail Self-Billing System	2026	Git
- Developed a real-time billing application to streamline checkout processes - Implemented inventory tracking to improve stock visibility - Reduced manual billing effort and improved operational efficiency		

Certifications & Achievements

• Python Essentials – Cisco	2024
• Introduction to IoT – NPTEL	2025
• FireFlow Certificate – Google Developer Groups	Feb 2025
